Wake Up Feeling **REFRESHED!**

SLEEP MATTERS. We spend 1/3 of our life in bed. The quality of our sleep directly impacts our health, concentration, mood, energy, and our overall quality of life. Regardless of your budget, we can help you

sleep better at Wayne Bedding. Our staff is trained to work with you on helping you find the mattress that helps you fall asleep faster, stay asleep longer, and experience better sleep overall.

Because we all have different preferences and needs, finding the right mattress for you begins with answering this question:

WHAT KEEPS YOU UP AT NIGHT?

SLEEPING HOT
68% of people sleep hot

SNORING
63% of women are awakened by snoring

TOSSING/TURNING
First indication mattress is not supporting you

PAIN
You shouldn't wake up feeling worse than when you went to bed

PARTNER DISTURBANCE
85% of couples go to bed at different times — you shouldn't be awakened when they move in bed

HAVE QUESTIONS? Call, text, chat, or email and we'll help you navigate the process, worry-free!

Our Top-Selling Mattresses and Their Features

OUR TOP-SELLING MATTRESSES HAVE KEY FEATURES AND TECHNOLOGIES THAT SET THEM APART FROM THE REST

HYBRID MATTRESSES

The mattress is constructed with individually wrapped coils and memory foam to give you the “hug” of memory foam for pressure relief and the “bounce” of innerspring for ease of movement while reducing motion transfer.

MEMORY FOAM MATTRESSES

This mattress technology gives you a “hug” for pressure relief. It will also reduce motion transfer and partner disturbance. You will sleep slightly “in” the mattress.

INNERSPRING MATTRESSES

This mattress technology has individually wrapped coils for a more buoyant, “on top” feel. The coils give individualized support and reduce motion transfer.
